Individual membership

Dear General Secretaries,

As you know EFORT is launching an official Journal "European Orthopaedics and Traumatology" (springerlink.com/content/1867-4569) during the Madrid meeting. For this reason we need to identify the individual members to have access to a password that will allow the member to enter the close section of the EFORT portal with free access to the Journal and all other information and in the future e-learning tools.

Since EFORT is a Federation of National Associations, the members are the National Associations. For this reason every individual member that would require to have access to the close section of the EFORT portal will be attributed a password if the individual will be a member of the own National Association. I hope this will satisfy your Association requirements.

This is for your information at the moment and the topic will be discussed further at the next General Assembly on 01 June 2010 in Madrid.

Please feel free to contact me, if you need further clarification.

I hope to see you in Madrid.

Sincerely yours,

Dr. Manuel Cassiano Neves
EFORT Secretary General
